WASTE & RECYCLING WORKERS WEEK

Slow Down to Get Around (SDTGA) is a national safety campaign that reminds motorists to drive more carefully when near waste and recycling collection vehicles. Being struck by a motorist is a leading cause of death for waste and recycling collection employees, and with proper awareness, is completely preventable.

Slow Down to Get Around is also the name commonly applied to legislation that requires motorists to slow down or move over when passing waste and recycling vehicles that are in the process of collection. Since the start of the campaign, at least twenty states have enacted some type of SDTGA law to help protect solid waste workers out on the job.

Show Your Appreciation

National Waste & Recycling Workers Week is a great time to show your appreciation by serving those who serve our communities. Throughout the week of June 17th, join us in thanking your garbage collection providers and all those who work in the waste industry.

Encourage your community to join the National Waste & Recycling Workers Week Celebration by inviting friends and neighbors to show their appreciation. It doesn't take much. Taking the time to simply say "Thanks" goes a long way. Here are a few fun celebration ideas to get you started.

Be sure to share your stories and photos with us on Facebook and Twitter using #WRWW.
